The Radio HF Internet Newsletter is distributed monthly, free of charge, to subscribers by e-mail. The Newsletter is a collection of web sites specifically related to radio (AM/FM, shortwave, Internet radio, amateur radio, scanning and CB), communications, telecommunications, radio memorabilia and collectibles, media, journalism, science, technology, space and astronomy, weather, transportation, plus some fun things thrown in for good measure! Each edition includes links to web sites submitted by subscribers or by the editor. All sites are reviewed, verified and presented to you, with the URL, and a brief description of each site.

The Newsletter arrives in your in-box as an easy to read e-mail as well as an attached PDF version, with no fear of viruses. The subscriber list is secure, private and confidential. It will never be sold, redistributed or displayed.

Subscribers are encouraged to submit web sites for inclusion in future editions of the Newsletter. All contributors whose sites are published will receive a 2% discount on their next purchase from Radio H.F. The e-mail address for all contributions, comments, and subscription requests is hfnewsletter@yahoo.com mailto:hfnewsletter@yahoo.com

Welcome to the June issue the Radio HF Newsletter. We're heading into summer here in Montreal and the calendar is full of great summer activities coming to our city. It gets underway this weekend with the Canadian Grand Prix. Then we have the Jazz Festival, the Just for Laughs Comedy Festival, the Nuits d'Afrique, the Rogers Cup Tennis, Fetes Nationale and Canada Day to name just a few of the numerous events and activities scheduled over the next few month. If you have a chance to travel and visit Montreal, you'll always find some world class events to participate in.

Happy Father's Day to all the dads on our subscriber list. Enjoy your day on June 21st. Also June 21st marks the summer solstice, the first day of summer. Plus, don't forget that June is going to be one full second longer as world time is adjusted by the addition of a leap second at 2359:59 on June 30th. Make your plans now!

THE GREAT CANADIAN BIRDATHON 2015 UPDATE

Thank you to those who made a contribution to our 2015 Birdathon. We completed our Birdathon on May 21st with a total of 90 species seen or heard throughout the day. Our total pledges collected to date for this year's event is just under $1300.00. There are still some pledges to come in. We'd really like to reach the $1500 mark, if possible.
I'd like to personally thank the following Radio HF Internet Newsletter subscribers who supported us this year:
Andrew Foot, Brian Penney, Brian Jeffrey, Claude Beaupre, Daniel Gillet, Daniel Sangster, Don Schimmel, Doug Copeland, Gary Donnelly, Howard Gontovnick, Janice Laws, Jim Hydzik, John Fisher, Keith Glashan, Ken Miller, Robert Mackenzie and Robert Thomassin. Thank you from us, and from the birds! This is an important cause for us and your support is vital.

For the rest of you, there's still time to contribute something, regardless of the amount. Every dollar helps. Please remember that you receive this Newsletter free of charge every month. If you value the information provided here each month, a small token of your appreciation to help protect the birds and their habitat would be greatly appreciated. It's simple to do directly through our 2015 Great Canadian Birdathon webpage at http://tinyurl.com/qftkome http://tinyurl.com/qftkome Just click on the "Give Now" icon. You can make your payment by credit card or PayPal, or by sending a cheque, payable to Bird Studies Canada to my Radio HF mailing address.

Our Monthly Special Zone for June includes web pages on several United Nations special days, plus Father's Day and D-Day.

This month's virtual voyage around the world, in the "Where in the World Zone", takes us to north-western Europe to the country of Denmark. The southernmost of the Nordic countries, it is located southwest of Sweden and south of Norway, and bordered to the south by Germany. Denmark forms part of the cultural region called Scandinavia, together with Sweden and Norway. The Kingdom of Denmark is a sovereign state that comprises Denmark and two autonomous constituent countries in the North Atlantic Ocean: the Faroe Islands and Greenland. Denmark proper has an area of 43,094 square kilometres (16,639 sq mi), and a population of 5,668,743. The country consists of a peninsula, Jutland, and an archipelago of 443 named islands, of which around 70 are inhabited.

Let's get down to business with this month's collection of web sites.

THE RADIO ZONE

THE SOUNDS OF VIETNAM

http://www.manchu.org/sounds/ http://www.manchu.org/sounds/

Via Sheldon Harvey, Greenfield Park, Quebec

To most Americans, the Vietnam War has a rock and roll soundtrack. Almost every novel, memoir or oral history of the war by a veteran mentions the music that the author listened to in Vietnam. All the songs of the '60s were part of the life in a combat zone. Troops listened to Sony radios, Akai stereos and Teac tape decks and new troops arrived weekly with the latest records from the states. Many of the sound clips below were recorded on a reel to reel recorder in Vietnam. They were then sent home and transferred to cassette. The sound quality is not the best but it sounded good to us back then.

BBC MEDIA ACTION

Via Sheldon Harvey, Greenfield Park, Quebec

Transforming lives through media, BBC Media Action is the BBC’s international development charity. We use the power of media and communication to help reduce poverty and support people in understanding their rights. Our aim is to inform, connect and empower people around the world. We work in partnership with broadcasters, governments, non-governmental organisations and donors to share reliable, timely and useful information. Our projects reach over 200 million people in 28 countries and are made up of debate shows, dramas, radio and TV programmes, public service announcements, mobile phone services and face-to-face communication. We also provide mentoring and training for journalists and development professionals.

FIRST RESPONSE RADIO

http://firstresponseradio.org/ http://firstresponseradio.org/

Via Sheldon Harvey, Greenfield Park, Quebec

First Response Radio (FRR) is a network of radio broadcasters, NGOs and Government partners. Our members have been working in disaster areas since the Tsunami of 2004, providing critical

information via radio, as aid . Our goal is to set up a radio station for the affected community within 72 hours of a disaster. The best way we have discovered to build this capacity is to equip and train teams before disaster strikes.

Via Sheldon Harvey, Greenfield Park, Quebec

Any avid shortwave listeners, particularly during the years of the Cold War, will be familiar with the "Woodpecker". That annoying interference that popped up throughout the HF radio spectrum was employed by the Soviets to disrupt foreign radio broadcasts from penetrating the Soviet Union. This is the story of a Russian jamming transmitter site in the Ukraine.

As I mentioned in past issues, I had the amazing privilege to attend the ARRL National Centennial Convention in Hartford, Connecticut last year. Over 3,300 members and friends attended, enjoying more than 60 programs and seminars, over 100 exhibits, tours of nearby ARRL Headquarters and the Maxim Memorial Station, W1AW. This DVD includes convention presentations from three special guest speakers: Rick Roderick, K5UR, ARRL First Vice President, W. Craig Fugate, KK4INZ, FEMA Administrator, and Joe Taylor, K1JT, Nobel Laureate in Physics. All three of these presentations speak to the future of Amateur radio in positive and challenging terms.

These presentations would make great fodder for discussion at any Ham Club meeting or other gathering of people who care about our hobby and its future.

This DVD, as well as other ARRL, RSGB and other books and publications are available from Radio HF.

PRIME TIME SHORTWAVE

Prime Time Shortwave is a listing of English shortwave broadcast that are updated frequently by webmasters Daniel Sampson and by database administrator Ernest Riley. The schedules are constantly updated from various print and internet sources as well as from monitoring by the webmaster and other shortwave listeners and DXers. The shortwave schedules are available by time, country and frequency format. Also, they are available in ASCII, Dbase and Excel. You will also find links to some of the best radio related websites and to the international broadcasters and time conversion charts (some provided by Craig Braun). Please visit the Prime Time Shortwave webpage at
